

IPv6 Status

JP Morgan Chase

Overview

- It's an official project
- Outside in, no surprises there
- Addressing plan baked for a while
- Hearts and minds strategy early on
- Enabling apps to test

Outside - In

Internet Edge

- IPv6 Peering Complete in US
- Applications able to test
- DDoS and other protection infrastructure enabled

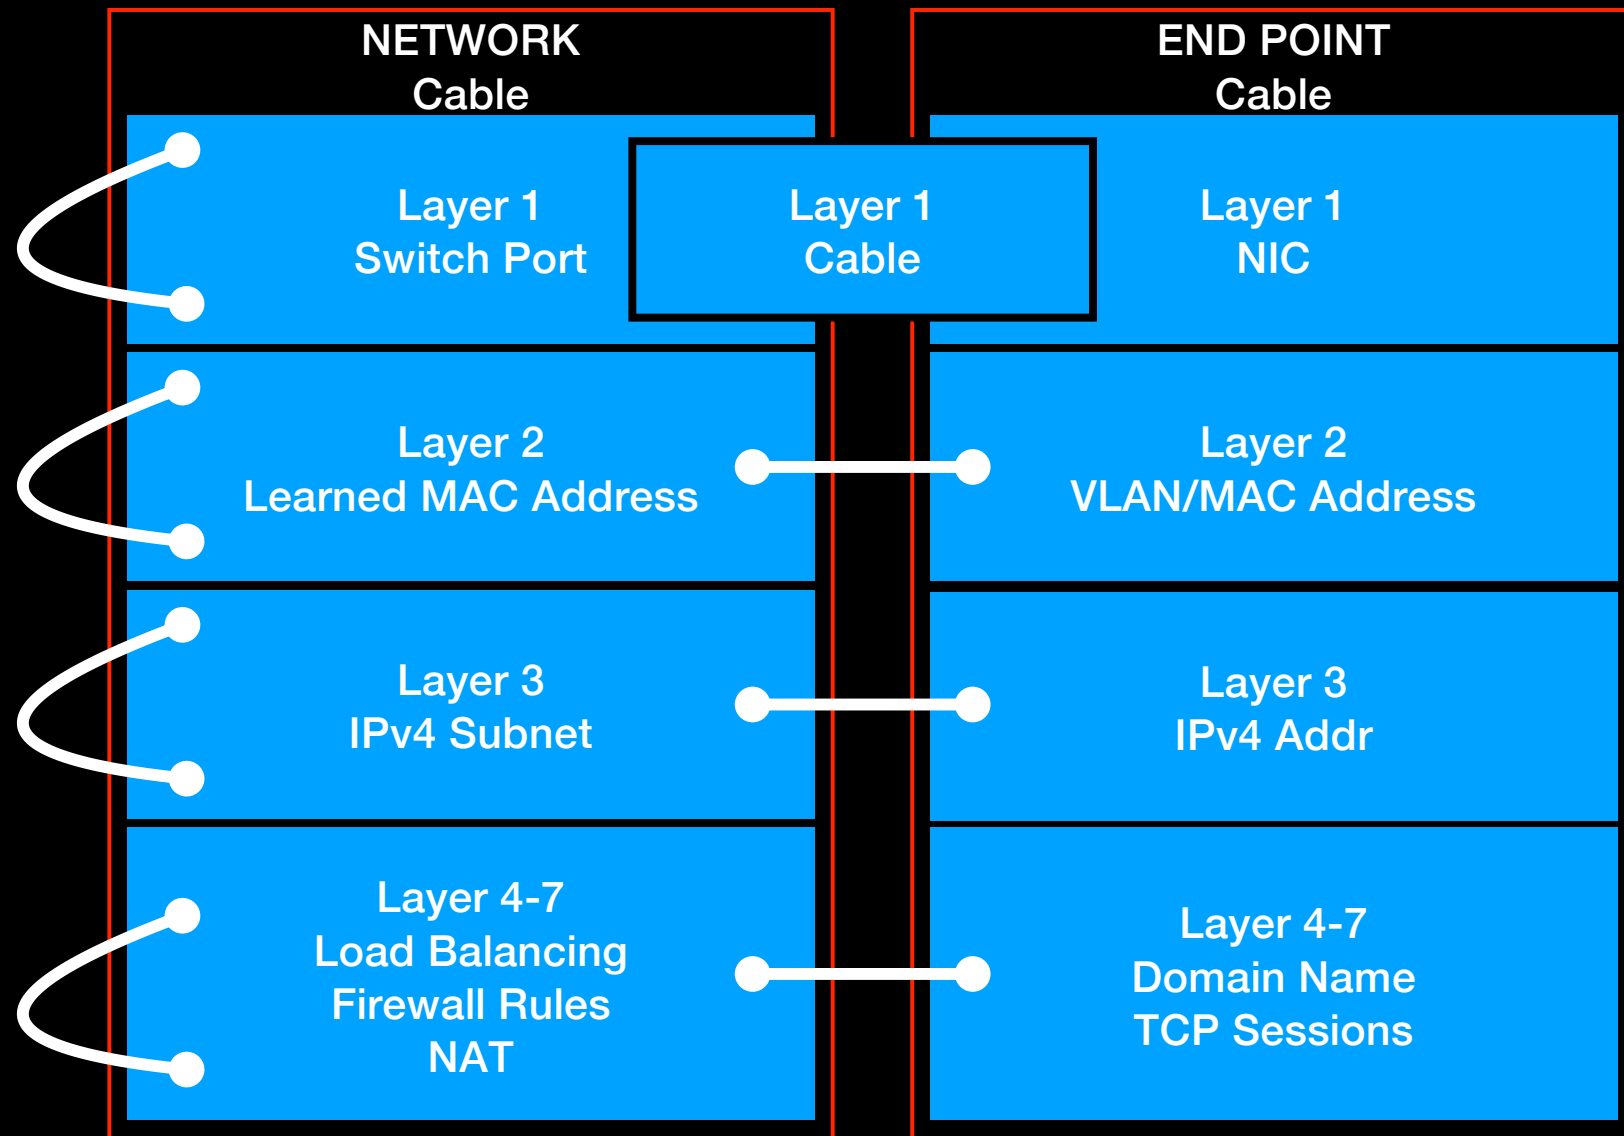

Internally

- IPv6 Only design in progress
- Driven by new data center scale
- Design and certification
