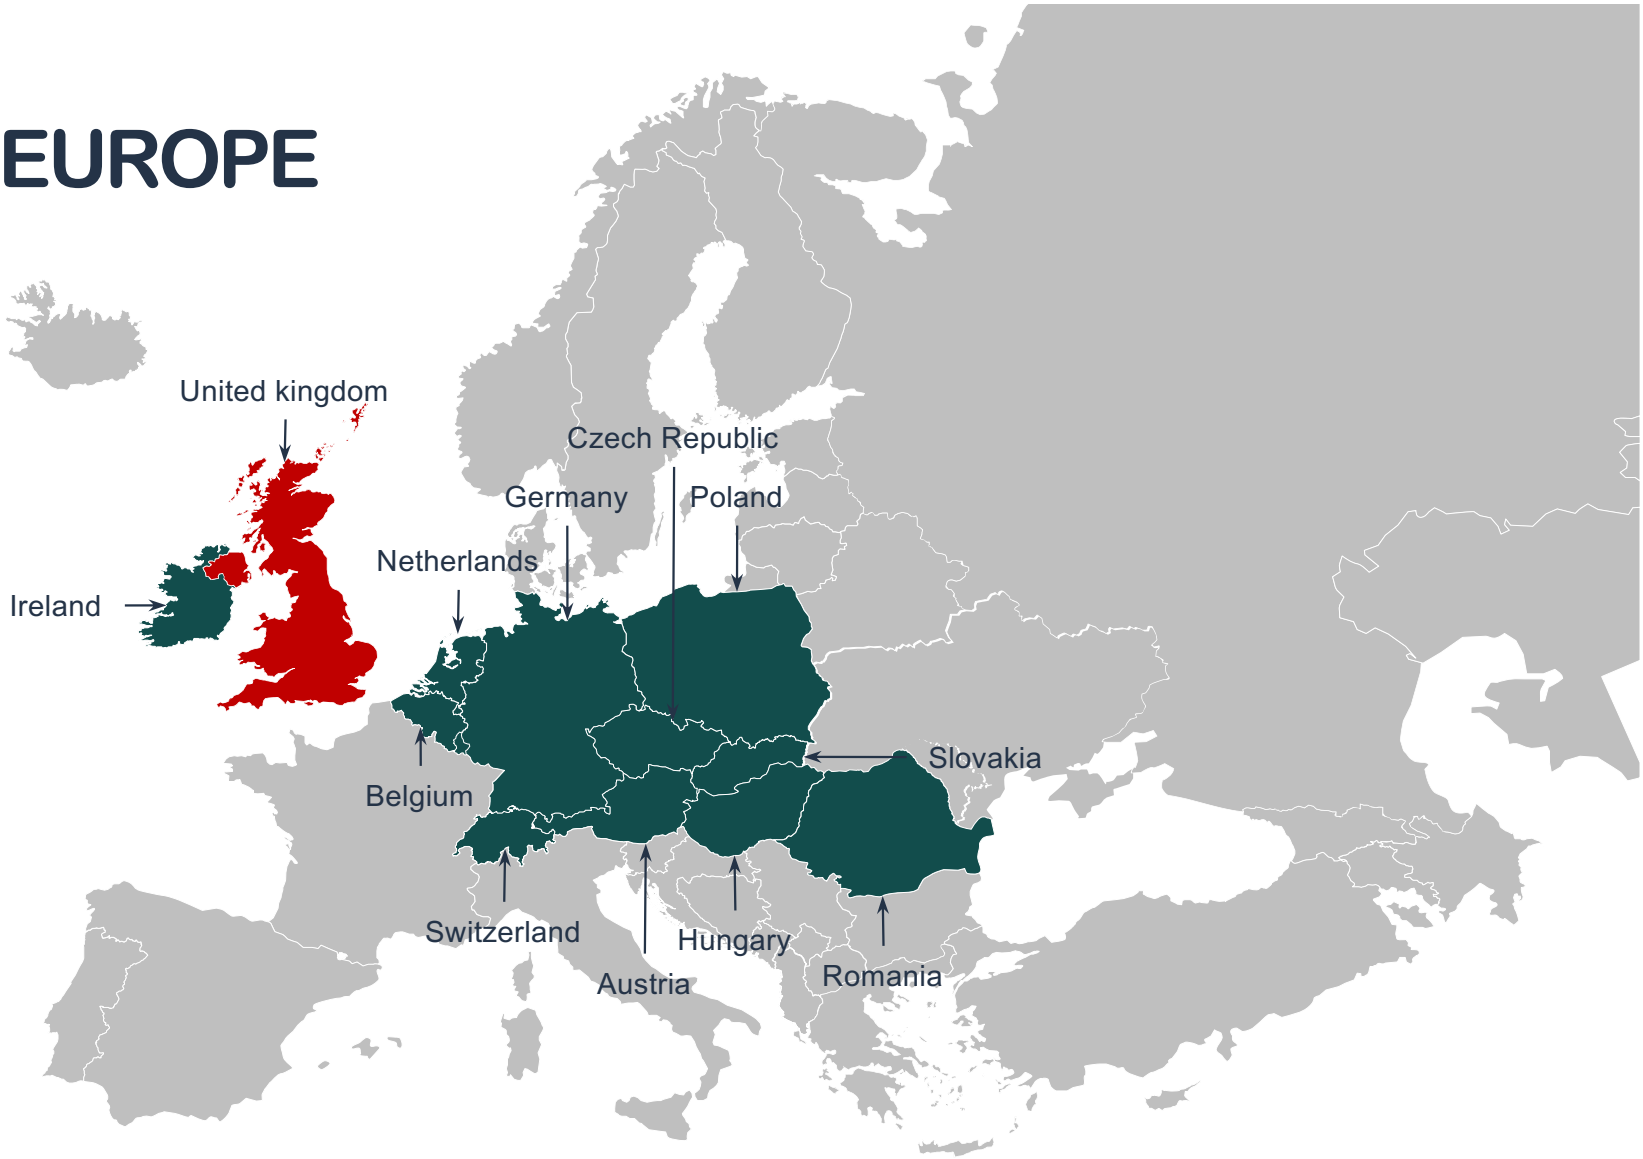
LG IPV6 EUROPE MAP

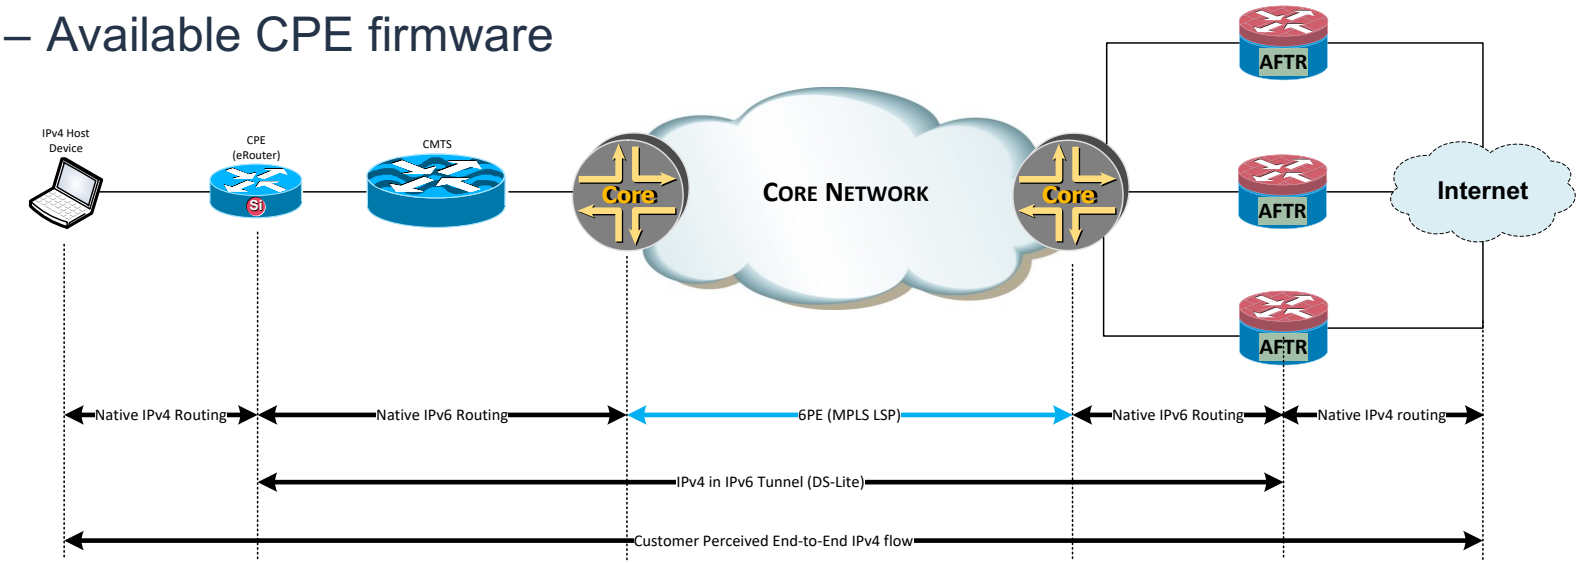


EUROPEAN IPV6 DEPLOYMENT

- IPv6 Broadband services across European countries
- About 4.5 million customers using IPv6
- DS-Lite widely deployed

WHY CHOOSE DS-LITE?

- Shortage of IPv4 addresses
- Ease of integration
  - Well known config changes
  - Available CPE firmware
- Simple
  - Use of existing technologies
- Almost transparent to customers



See https://www.ipv6.org.uk/wp-content/uploads/2018/11/DS-Lite_Implementation_considerations.pdf for more information

UK IPV6 DEPLOYMENT

- Upgrade of Core Network to support IPv6 services has been completed
- New voice network running over IPv6 Transport
- Customer testing for IPv6 Broadband currently ongoing
- IPv6 Broadband Product launch soon

THANK
YOU
